

WHAT FITS?

Materials: "Bank" made from an oat container (cut a slot in the lid about 1" square); two objects that fit through the slot and two that don't fit

Encourage your baby to try to fit objects through the slot.

Let's see if this long,
thin crayon fits.

Find something else
that fits.

Try to squish this big,
wide pompom so it fits.

SHAPE SORTER

Materials: "Bank" made from an oat container (cut a slot in the lid about 1/2" wide and 2"); two objects that fit through the slot and two that don't fit

Encourage your baby to try to fit objects through the slot.

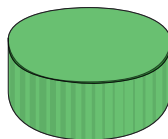

Let's see if this long, thin straw fits.

It doesn't fit if I hold it sideways.

Find something else that fits.

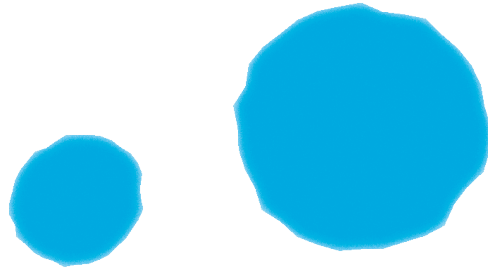

PLAY DOUGH BALL

Materials: Play dough

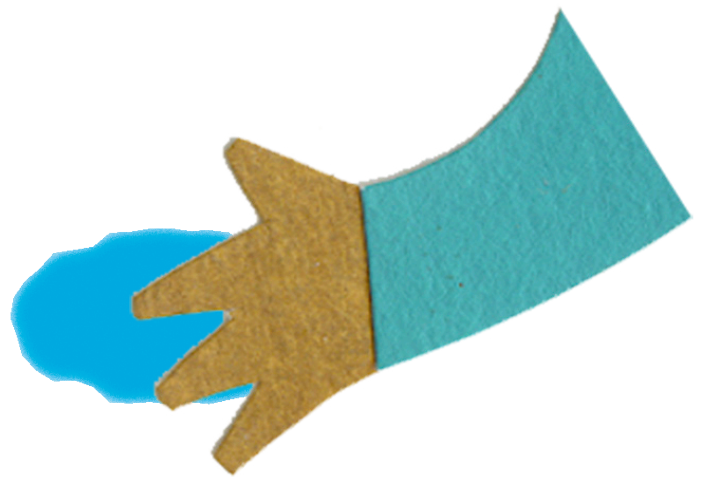

Roll a ball of play dough with your baby.

This is a small, round
ball. Let's make a
bigger one.

What happens if we
squash this ball flat?

It's a circle!

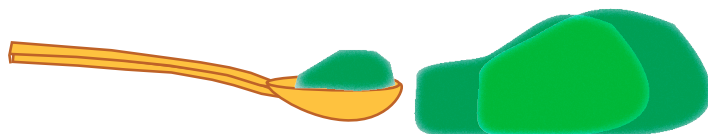

MEASURE UP

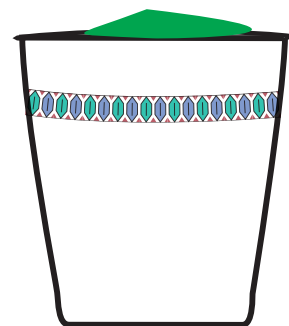

Materials: Play dough, a few small containers in different sizes (yogurt cup, spoon, etc.)

Help your baby fill containers with play dough.

We'll need **more** play dough to fill this spoon.

This cup is **full**! We can't fit any more in.

Let's see if we have enough to fill the cup.
